RENEWABLE ENERGY

SERVO MASTER

BENEFITS

- ECCENTRIC or KNUCKLE-JOINT kinematic with SERVO motors.
- Flexible press cycle programmable in conventional mode or pendulum.
- Rated Power from 2000 to 30000 kN
- Bolster up to 7 meters
- 1-2-4 connecting rods
- Fixed or adjustable strokes up to 800 mm
- Working speed up to 200 SPM

BOOST PRODUCTIVITY

ECCENTRIC OR KNUCKLE-JOINT
 RATED **POWER** FROM 2000 TO 30000 kN
 WORKING **SPEED** UP TO 200 SPM

MOTION MASTER

BENEFITS

- LINK MOTION kinematic for SLOW DOWN
- Rated Power from 1000 to 30000 kN
- Bolster up to 7 meters
- 1-2-4 connecting rods
- Fixed or adjustable strokes up to 800 mm
- Working speed up to 200 SPM

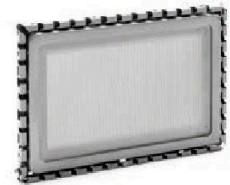

HIGH SERVICES

DOUBLE KNUCKLE-JOINT
 RATED **POWER** FROM 1000 TO 30000 kN
 WORKING **SPEED** UP TO 200 SPM

SAMPLES COMPONENTS

POWER MASTER

BENEFITS

- ECCENTRIC kinematic
- Rated power from 1000 to 20000 kN
- Bolster up to 7 metres
- 1-2-4 connecting rods
- Fixed or adjustable strokes up to 600 mm
- Working speed up to 200 SPM

STRONG PERFORMANCES

ECCENTRIC KINEMATIC
 RATED **POWER** FROM 1000 TO 20000 kN
 WORKING **SPEED** UP TO 200 SPM

HI PRO MASTER

BENEFITS

- ECCENTRIC kinematic
- Dynamic balance and plungers
- Rated Power from 1000 to 3000 kN
- Bolster up to 2 meters
- 2 connecting rods
- Working speed up to 300 SPM

SPEED OF MOVEMENT

ECCENTRIC KINEMATIC
 RATED **POWER** FROM 1000 TO 30000 kN
 WORKING **SPEED** UP TO 300 SPM

ZANI
presse
MECHANICAL PRESSES

In a continuously developing market, Zani provides the answer and technological growth for those who choose a Zani press. We offer a broad service due to our personal approach and design Know-How which pertains to the Company itself. Constant updating, dynamism and adaptability towards new market requirements, prompt and efficient response allows our customers to be fully informed. They can receive development and technical news results which have been tested in our research labs. Thanks to our careful approach towards every customer, Zani is the right partner for your expansion projects.
